

QUALITY POLICY

Zema Zselics, manufacturer of grinding machines and accessories, through the adoption of responsible and ethical practices to its employees, customers and partners, is committed to:

- Persistently seek to meet customer requirements, with the purpose of achieving their highest satisfaction, through:
 - supply of high quality products and services;
 - continuous improvement at our processes and reduction of costs of our products and services;
- Create an environment conducive to Zema's progress and the professional and personal growth of its employees
- Promote the constant improvement of the Quality Management System.

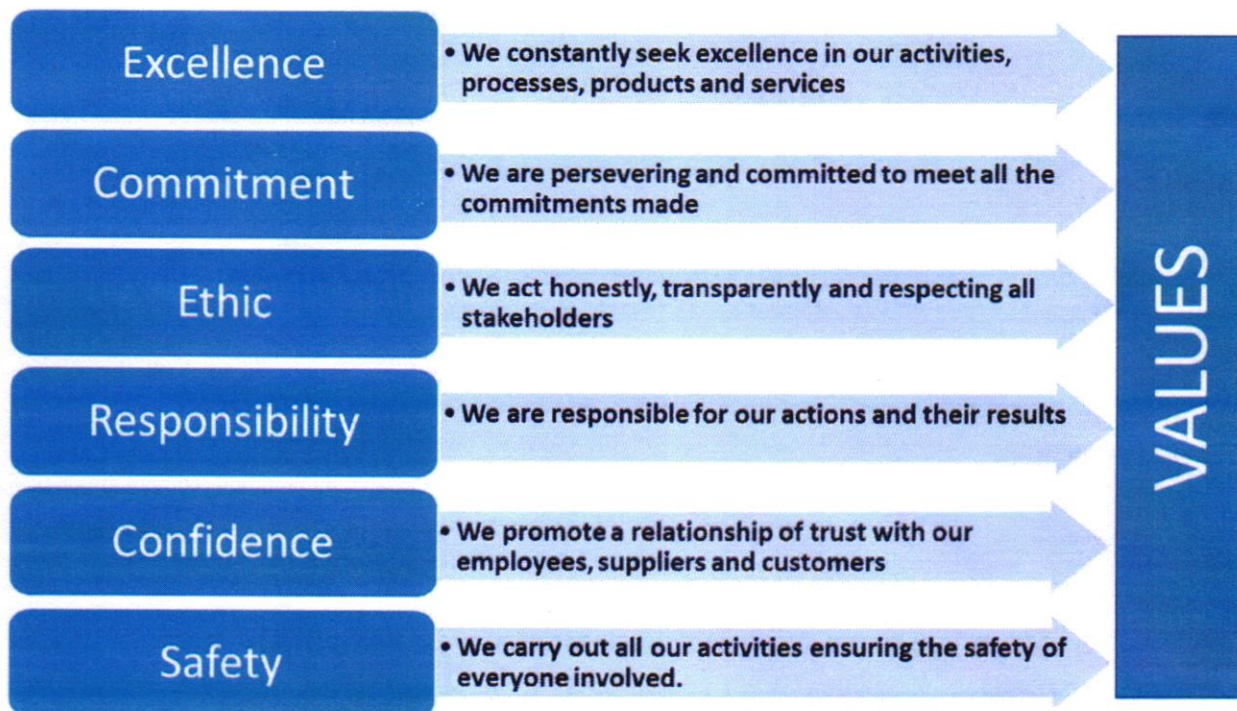

MISSION

Supply the highest quality grinding machines with high performance and with the best technologies available in the global market, providing our customers the best solutions in cylindrical grinding.

VISION

To be a reference as a supplier of cylindrical grinding machines in the national market and to strengthen our name and our products in the international market.

OUR VALUES

QUALITY POLICY (5.2)

Initial issuance: February 2011
Revised in: March 2025
